Intoleran Daily Fibre Support

Customs declaration product Intoleran Daily Fibre Support

To whom it concerns,

Intoleran Daily Fibre Support is a food supplement which contains prebiotic guar bean fiber and ginger extract. The product is intended to supplement daily fiber intake and supports digestive function and regular bowel movements.

Intoleran Daily Fibre Support contains prebiotic guar bean fibers from the brand SunFiber®. SunFiber® fibers are not digestible by the human body, meaning they reach the colon unchanged. There, they are fermented and form a food source for beneficial gut bacteria.

Intoleran Daily Fibre Support also contains ginger extract. This extract is extracted from the root of the ginger plant *Zingiber officinale* Roscoe and contains 1% bioactive substances (gingerols and shogaols). Ginger extract is known for its beneficial effects on the stomach, intestines and anti-inflammatory properties.

With kind regards,
